ABB

Performance and comfort, your best choice for operator terminals

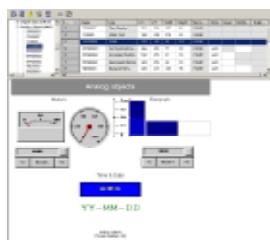

The ABB range of HMI operator panels offers an excellent diversity of features and functionality to facilitate maximum operator comfort at a price to meet requisite budgetary needs.

ABB operator panels offer highly efficient and effective functionality such as alarm and event management, graphics, animation, macro and Ladder Diagram functionality and recipe management. The range is available from a compact 3 inches monochrome version up to a large 10.4 inches colour TFT display.

Most models are available in either STN or TFT screen format.

Ref	Name	Size	Completion	Configuration
1	Solenoid J	640 x 480	100%	OK
2	Solenoid K	640 x 480	100%	OK
3	Stainless Steel	640 x 480	100%	OK
4	Graphs	640 x 480	100%	OK
5	Detailed Graphics	640 x 480	100%	OK
6	Animation Objects	640 x 480	100%	OK
7	Text	640 x 480	100%	OK
8	Icons	640 x 480	100%	OK
9	Alarms	640 x 480	100%	OK

12	Recipes	640 x 480	100%	OK
13	Loops	640 x 480	100%	OK
14	Language	640 x 480	100%	OK
15	Variables	640 x 480	100%	OK
16	Tables	640 x 480	100%	OK
17	Indicators	640 x 480	100%	OK
18	Text	640 x 480	100%	OK
19	Icons	640 x 480	100%	OK

Quick and easy project creation and management

Quickly view and easily manage your project components using the **screen manager** (detailed list or screen miniatures).

Simplify the creation, modification, sorting and identification of your project data via the **cross-references** function.

Easy testing and use

Test your projects, screens and alarms as well as your communication and controller functions quickly via **on- and off-line simulation**. Change language quickly and easily using the **multi-language support** function.

Secured data and operations

Protect your files and machine configurations using global and object-specific passwords (9 protection levels) to prevent downloading of the application.

Simplified adaptability and connectivity

Connect your HMIs to the various automation equipment:

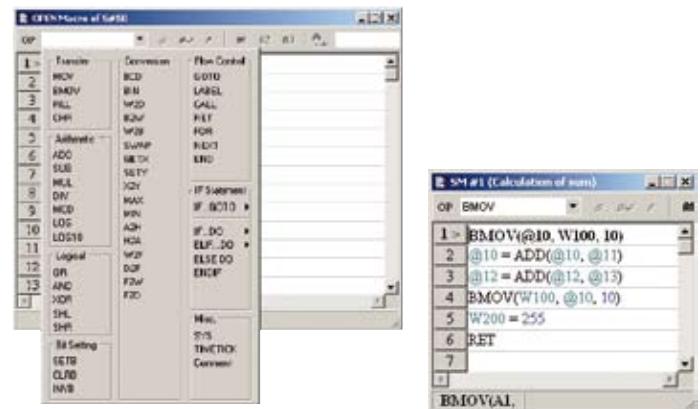

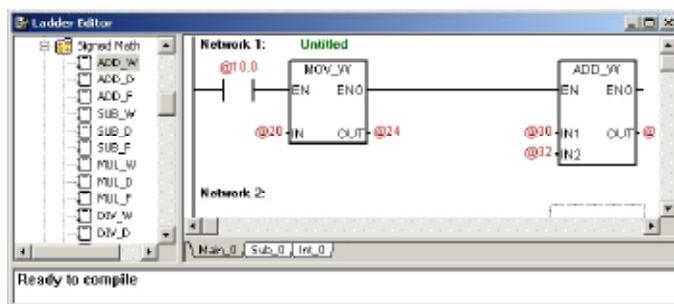

- via the various **possible protocols** for ABB AC31, series 40&50, AC500-eCo and AC500 PLCs and more than 100 leading PLCs on the market, where the display acts as gateway. The multi protocol also allows data to be exchanged between the various controllers.
- via **multi-channel communication** (Connecting a controller to each available port via different protocols, transferring values between drivers via macros, using the values of various controllers in the calculations).
- via the **multiple connection media** (RS232, RS485, RS422 or Ethernet...) increasing connection capacities.

Simplified creation

Simplify the creation of your projects using:

- the **Macro** and **Ladder** functions, providing you with ready-to-use modules such as arithmetic functions
- quick and easy retrieval of your PLC's variables by **variable import**.

Easy template choice

Satisfy your requirements by choosing the HMI which is most adapted to your needs in terms of dimensions, colours, functions and connection.

Enhanced visual comfort

Embellish your screens by using available or imported **fonts** and by importing **animated GIF images**.

For the entire range:

- 32 bit RISC CPU
- graphics and text
- Macro and Ladder
- on-line and off-line simulation
- real time clock, password protection
- 4 MB or 8 MB flash memory
- 24 V DC ± 15% supply voltage
- ambient temperature: 0 to 50 °C
- IP65 class protection
- conform to ROHS
